SOFT SKILLS

- Problem-Solving
- Time Management
- Strong Communication
- Continuous learning
- Design Thinking
- Creativity

PROFILE

I'm a passionate Full Stack Developer and Information Technology student, following by Bachelor of Information Technology (Hons), specializing in modern web technologies. With expertise in React.js, Next.js, and Node.js, I build scalable applications that deliver exceptional user experiences. My backend skills include express.js, while I'm proficient in both SQL and NoSQL databases. I'm committed to writing clean, maintainable code and staying current with industry best practices.

Technology stream

EXPERIENCE

2025- present

Twist digital- Software Engineer - intern (Full-Stack)

Currently working as a software engineer at Twist Digital, where I'm gaining hands-on experience in full-stack web development using modern technologies. My work spans both frontend and backend development, with a strong focus on Next.js for building scalable and high-performance applications.

Key Responsibilities:

- Full-stack web development using Next.js and modern technologies.
- Connecting external APIs for applications.
- Deploying applications and managing CI/CD pipelines.
- Building efficient, user-centric applications.
- Database design and migrations.

Technologies & Skills: Next.js, React.js, Node.js, Express.js, TypeScript, JavaScript, Tailwind CSS, MongoDB, AWS, GitHub, Git, CI/CD, Data Migration, Webhookss

PROJECTS

Blog application: Django, MySQL, HTML, CSS + Bootstrap.

E-commerce website (Blaster online store): PHP, JavaScript, MySQL.

Website for Blood Donation: PHP, MySQL.

Language translation application: React + Tailwind CSS.

Real estate lead management system: Django, SQLite, Bootstrap.
